MICHAEL SHEPHERD

FRONTEND DEVELOPER

INTRODUCTION

Starting from an empty document to a finished functioning website, I love seeing the process of hard work. After working professionally as a musician for the last 10 years, I have discovered a new passion and creativity within front end development. I am a junior front end developer with a passion for learning, problem solving and developing new skills.

EXPERIENCE

FREELANCE | WEB DEVELOPER

August 2019 - Present

Creating responsive websites using front end technologies including HTML, CSS, Javascript and React. I have been working with clients ranging from local musicians and restaurants. This allows me to carry over my freelancing and business skills from working as a musician, alongside developing new skills to refine and level up to becoming a more advanced frontend developer

CHRISTOF BERGMAN | WEB/TECHNICAL ASSISTANT

September 2016 - November 2019

Working along side Berlin based composer Christof Bergman, I was responsible for assistance with web design, wordpress maintanence, digital marketing and video and audio content creation. This was a great opportunity for me to work on my design and UI and styling skills using the wordpress CMS.

FREELANCE | MUSICIAN

September 2008 - November 2019

During my years as a professional musician I worked as a guiarist, songwriter, producer and teacher. Working in DIY bands, I developed side skills such as web design and artwork layout design using Adobe Photoshop. I was responsible for the art direction and album layout for my band, régresser, as well as web and social media direction.

SKILLS

HTML5

CSS3/SASS

JavaScript

React

Responsive Design

Git
